+91 8762620917 | bhatnagaraj80@gmail.com | linkedin.com/in/nagaraj-bhat | github.com/Nagaraj-S-Bhat

## SUMMARY

Final-year B.Tech student in Information Science and Engineering with hands-on experience in full-stack development (React.js, Node.js, Spring Boot), relational databases, and applied machine learning. Built and deployed data-driven applications processing millions of records and delivered production-style REST APIs. Seeking an internship or entry-level role in software engineering or data analysis.

## EDUCATION

|                                                                                                                                                                                                                                                 |                                                                       |

## TECHNICAL SKILLS

**Programming Languages:** Java, Python, C, SQL  
**Web Development:** React.js, Next.js, Node.js, Express.js, Spring Boot, Spring MVC, REST APIs, HTML, CSS, JavaScript, Tailwind CSS  
**Databases:** MySQL, PostgreSQL, SQLite, Prisma ORM  
**Machine Learning:** Scikit-learn, Pandas, NumPy, Feature Engineering, Time-Series Analysis  
**Tools & Platforms:** Git, GitHub, VS Code, Google Colab  
**Core CS:** Data Structures & Algorithms, OOP, Operating Systems, Computer Networks

## EXPERIENCE

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                |
